These books & papers brought to you **free** by **MAGPUL INDUSTRIES**

<http://www.youtube.com/watch?v=ctPyeNZqFho>

Over 4 Decades of Books, Papers and Thoughts  
of

*Daniel P. Fitzpatrick, Jr.*

*who has not only written some top notch books*

*but also has pulled together*

*--- as **MAGPUL** sees ---*

*a great number of scientific facts that show us*

*a universe almost no one has even considered.*

If **Dan Fitzpatrick Jr.** is right then we are in a steady-state universe with Einstein's cosmological constant **repulsive force**, holding everything apart, and we would not perceive the difference between this and an accelerating, expanding universe.

If there is no perceived difference between gravity and acceleration then there is no perceived difference between the two abovementioned universes either!

"If the principle of equivalence holds for gravity, then it also holds for gravity's equal but opposite **repulsive force** and gravity becomes a **bi-polar** force like the other fundamental forces." **Dan Fitzpatrick Jr.**

"Most of us often encounter **the truth** but we usually pick ourselves up and pretend it did not happen." (Winston Churchill)

"The **de Broglie wavelength formula** shows us the **blue** shift in the microcosm. Looking inward (microcosm) everyone agrees this is caused by a **force** (momentum). No one has ever claimed this was evidence of **contraction** in the microcosm.

If this analogy is good looking inward to the microcosm then why isn't it good looking outward to the macrocosm?

*Therefore: the **red** shift is not evidence of an **expansion** but of a **force**. It's evidence of gravity's equal but opposite **repulsive force**. It's evidence of Einstein's Cosmological Constant." **Dan Fitzpatrick Jr.***

Everything here is absolutely FREE

And these below are only a small part of the writings of [D.P.Fitz, Jr.](#) that we've found and placed here so far.

Please bear with us: More will be added as they are located and permission obtained to be added to this **free** page.

Therefore this page - paid for by **MAGPUL INDUSTRIES** - is still under construction.
