

Web Page. Fitz's Book

Send **color** & LINKS via these
FREE e-mail sources.

Has Yahoo cut you down to only one e-mail name?

Are you tired of losing names with msn hotmail?.

Most free e-mails are cheapos like the one offered by the
Bell phone companies where you cannot even send links or
color.

To me links are important because people can just click on
them. . I want an e-mail where I can send my friends links.

All of these following e-mail sources offer you FREE e-mail
that send **color** & Links.

However, these people are in business to make money and
they DO want you to buy their services.

BUT

I have gotten FREE e-mail in each of the following without
paying them even one red cent.

You WILL have to jump through hoops on some of these.

As I get time I will write up a better individual guide for
each of these in particular but they do all work and they
are indeed FREE.

HAVE FUN
